A day without laughter is a day wasted - Sir Charles Spencer Chaplin

## EXPERIENCE

### **Scratchpay, Remote** — Full Stack developer and Team Lead

August 2018 - Current

Been working with scratchpay on their financing solutions alongside several feature teams to deliver integrations with Nortridge, Experian & Stripe. These days I've been leading the payment integration team for a payment solution we are rolling out.

### **BlueCoding, Remote** — *NodeJS Developer for Bluestar Sports*

December 2017 - April 2018

Worked alongside a team of in-house and remote developers in the development of a NodeJS based platform. I was mainly working with the API but with my Fullstack management background I was able to chip in other areas of the project as well.

### **Media Revolution, Santo Domingo** — *Development Manager*

January 2014 - February 2017

Lead developer for the company as well as in charge of scheduling and monitoring of projects and resources. During my time at this company I had to come up with creative solutions for architectural problems regarding the technologies we used. I also led a team of 7 developers specializing in different areas, managing their time, tasks, and impact on the projects we worked on. As part of my responsibilities I held meetings with management to determine project needs and a proper course of action, as well as estimating deadlines, defining MVPs, choosing data flows and assigning resources.

### **EquitCode, Santo Domingo** — *Technical Support Manager*

May 2012 - September 2013

In charge of equipment installation, technical sales aide, customer satisfaction. The time I spent working for this company was filled with dynamic situations requiring me to proactively adjust to constant changes on customer schedules and needs, as well as implementing internal ERP software and setting the bases for a development department.

Daylight - Upon request

## ABOUT ME

I'm a Development Manager and Senior Developer with over 7 years of experience in the industry, with a refined taste for work well done. Passionate about technology and its driving force, people.

I've got a lot of experience with time-sensitive data delivery and real-time services as well as integrating with other services and APIs.

Twilio, Paypal, Stripe, NetPay, Experian, Nortridge are some of the services I've previously worked with.
